Electricity prices have not been set. Choose "Plants > Set Electricity Prices" to set electricity

En Fusión Solar seleccionar "Report Management / Gestión de Informes"

The screenshot shows the FusionSolar web application interface. The top navigation bar includes links for Home, Monitoring, Reports, Plants, Maintenance, Value-Added Services, and System. The left sidebar contains a search bar and a list of device names. The main content area displays the 'Plant Report' section, which includes a sub-navigation bar with 'Plant Report', 'Inverter Report', 'PCS Report', and 'Battery Report'. Below this, there are filters for 'Time granularity' (Monthly) and 'Statistical period' (2024-02), along with a 'Search' button. The table header shows various metrics: Statistical Period, PV Yield (kWh), Inverter Yield (kWh), Export (kWh), Specific Energy (kWh/kWp), Consumption (kWh), Self-consumption (kWh), and Revenue (¥). The table body contains several rows of data, and the bottom right corner shows pagination information: '1 / 10 / page'.

Nos posicionamos en “Reporte de Planta / Plant Report”

Si lo que quiero es periódicamente recibir un reporte con la generación de la planta, elijo "Suscribe"

Selección “Añadir / Add”

The screenshot shows the 'FusionSolar' web interface. The 'Reports' menu is active. A 'Plant Report Subscription' dialog box is open, titled 'Add Report Subscription'. The dialog box contains the following fields:

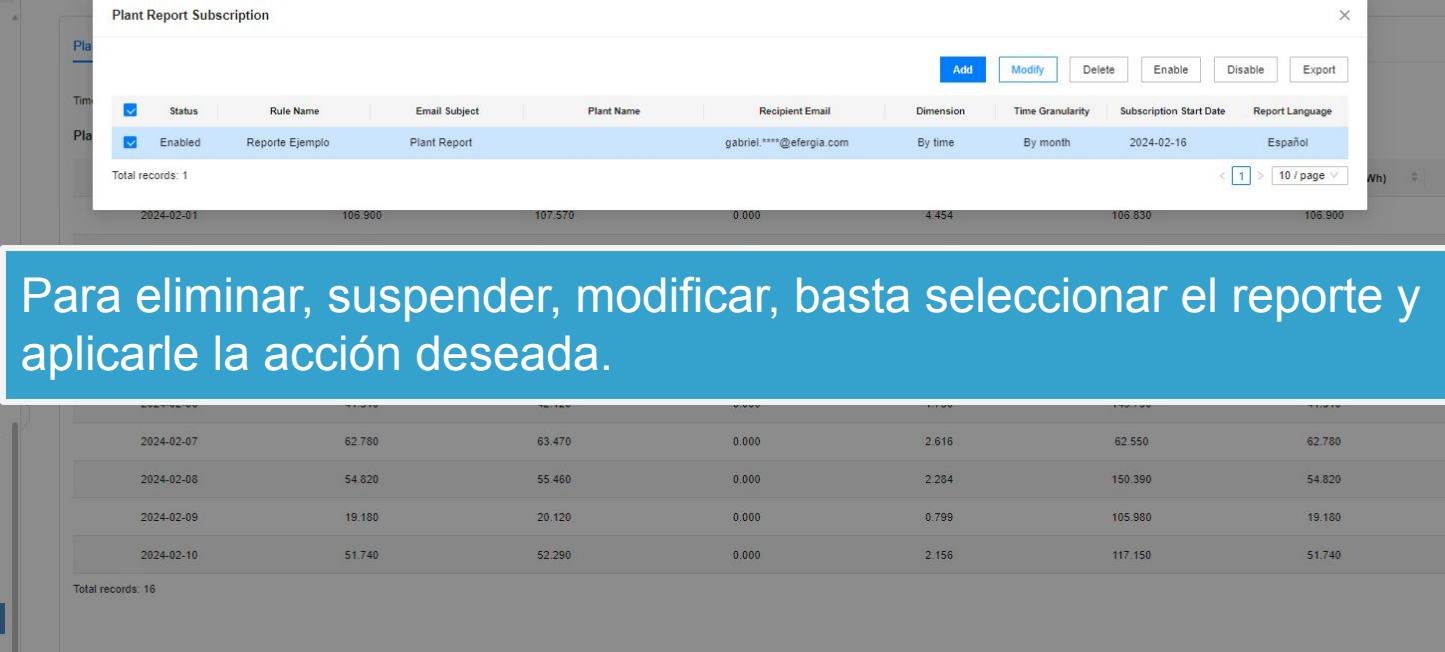

- Rule name:** Reporte Mensual Cliente X
- Report language:** Español
- Email subject:** Plant Report
- Plant:** (Empty field with a search icon)
- Dimension:** By time
- Time granularity:** By month
- Recipient email:** direccionejemplo@ejemplo.com

At the bottom of the dialog box, it states: 'The report will be sent at 04:30 local time (time zone of the selected plant).' There are 'Cancel' and 'OK' buttons.

In the background, a table is visible with columns for 'Status', 'Rule Name', and 'Email Subject'. A white arrow points from the 'Plant' field in the dialog box to the 'Plant' column in the table.

Se abrirá un formulario que tendremos que llenar con los datos de interés sobre la planta elegida y el destinatario del informe

Al finalizar el procedimiento quedarán listadas las características del reporte.

Para eliminar, suspender, modificar, basta seleccionar el reporte y aplicarle la acción deseada.
